

DR. *Kevin*  
CAMPBELL'S  
AESTHETICS

## Informed Consent for Intravenous Therapy

Intravenous therapy consists of delivering micronutrients directly into the bloodstream using an intravenous catheter.

The aim is to provide the necessary supplements to promote good health and improve quality of life by helping patients feel more energetic, more focused and boosting the body's natural defense mechanisms. **Please disclose all medical treatments actively being taken/used** as this may directly interact with the micronutrients used in IV therapies. **There exists a risk of infection at the site of injection for all patients. All allergies must be disclosed.**

### Contra-indications

- Pregnancy
- Infants
- Kidney disease
- Known hypersensitivity to any of the therapies
- Asthma (especially in the case of Glutathione therapy)

I, \_\_\_\_\_, confirm that I have read, understood, and

agree to the conditions mentioned above.

*I also acknowledge that I read the pre-and post-care instructions on  
[www.drkevincampbellsaesthetics.com](http://www.drkevincampbellsaesthetics.com).*

I confirm that I understand the risks of complications inherent to Intravenous therapy. I declare that I am of sound mind at the time of signing this agreement and that I am not under duress. I hereby give permission for the agreed intravenous therapy.
